FALL INTO KRAFTING WITH KKC

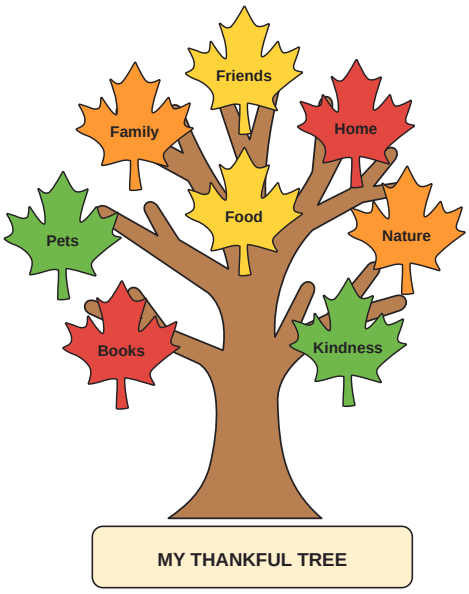
# My Thankful Tree

Grow a tree full of things that make you thankful!

## WHAT YOU NEED

- Tree template (pages 2 & 3)
- Printer + white paper or cardstock
- Crayons or markers
- Pencil or pen
- Scissors
- Glue stick or craft glue

Optional: colored paper for tracing or a background.



One way to make it!

## LET'S MAKE IT

**1. Color your tree.**

Color the trunk and leaves. Try using fall colors or choose your favorites! Use light colors on the leaves so your words will show.

**2. Think of what makes you thankful.**

Write or draw one thing on each leaf. It could be a person, a place, an animal or something you love. A grown-up can help you write.

**3. Cut out the pieces.**

Cut around the trunk and each leaf. Cut out the label, if you want to use it. Ask a grown-up to help with the branches and scissors.

**4. Plan your tree.**

Lay the leaves around the branches before gluing. Keep your words and drawings showing. Use as many leaves as you like.

**5. Glue it together.**

Glue part of each leaf onto a branch or another attached leaf. Add the label near the bottom. You can also glue your tree onto a background sheet.

**6. Share your thankful tree!**

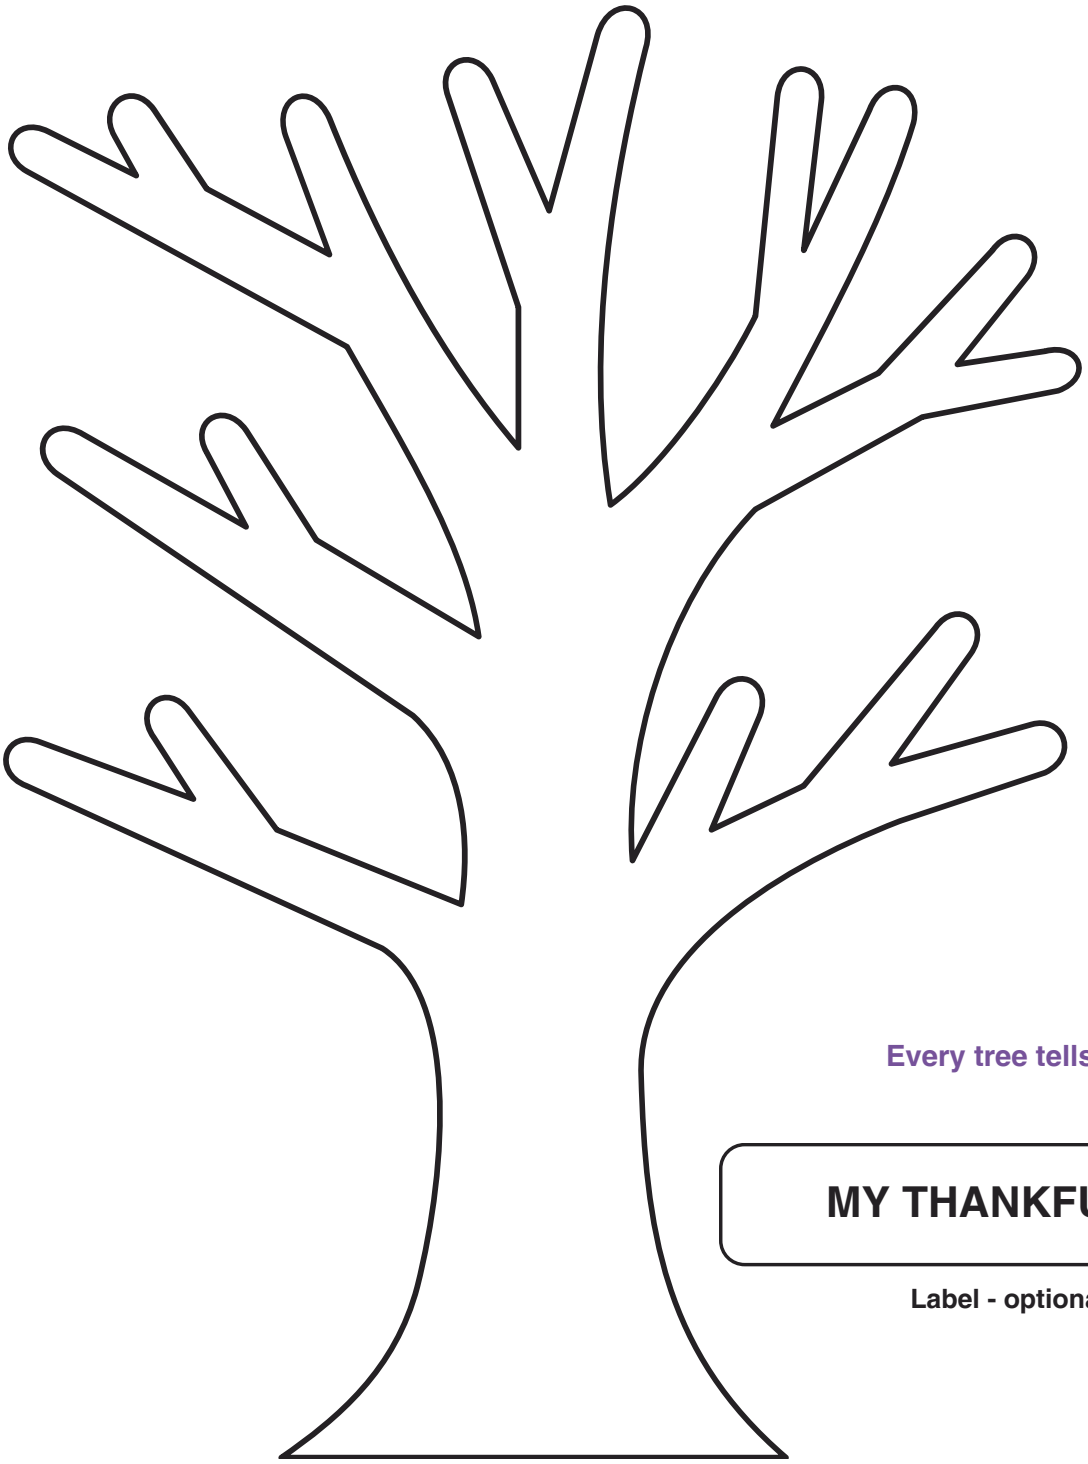
Let the glue dry, then tell someone about your leaves. Add your name and date on the back. Display your tree where you can enjoy it!

Please share with me by tagging KKC on Facebook (Kay Kraft Club) or Instagram! (kaykraftclub)

# My Thankful Tree

Grow a tree full of things that make you thankful!

Print on US Letter at 100% / Actual Size. Cut the outside outlines only.



TRUNK - cut 1

Every tree tells a different story!

MY THANKFUL TREE

Label - optional, cut 1
