FALL INTO KRAFTING WITH KKC

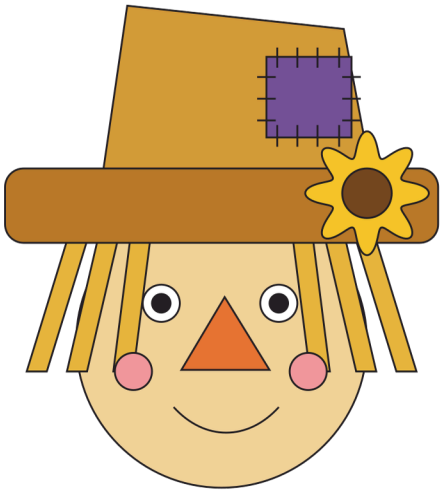
Scarecrow Buddy

Make a friendly fall face!

WHAT YOU NEED

- Scarecrow template (page 2)
- Printer + white paper or cardstock
- Crayons or markers
- Scissors
- Glue stick or craft glue

Optional: colored paper for tracing the shapes.



One way to make it!

LET'S MAKE IT

1. Color your pieces.

Color all the pieces on page 2, including the six hair strips and flower. Or trace them onto colored paper.

2. Cut them out.

Cut around the outside of each shape. Ask a grown-up to help with the scissors.

3. Add some hair.

Glue one end of each hair strip to the BACK of the hat brim: three on each side. Let the hair hang below the brim.

4. Build the hat.

Glue the brim to the hat top. Add the patch and draw stitches. Glue the flower center onto the flower, then glue the flower onto the brim.

5. Put it together.

Glue the finished hat onto the top of the face, with the hair hanging down on both sides. Glue on the eyes, nose and optional cheeks.

6. Give it personality!

Draw a smile. Add freckles or extra decorations, then let the glue dry before showing off your buddy.
