FALL INTO KRAFTING WITH KKC

Pumpkin-Spice Mug

A cozy paper friend, made your way!

WHAT YOU NEED

- Mug template (page 2)
- Printer + white paper or cardstock
- Crayons or markers
- Scissors
- Glue stick or craft glue

Optional: colored paper for tracing the shapes.

One way to make it!

LET'S MAKE IT

1. Color your pieces.

Color the pieces on page 2, or trace them onto colored paper. Color the pumpkin and stem on their single cutout.

2. Cut them out.

Cut the outside edges only. Keep the pumpkin and stem together as ONE piece. Ask a grown-up for cutting help.

3. Add the handle.

Glue the two flat ends of the handle to the BACK of either side of the mug. Keep the curved part sticking out.

4. Top it off.

Glue the whipped cream over the mug's top edge. The sprinkles are optional: color and glue them on, or create your own topping.

5. Add your pumpkin.

Glue the whole pumpkin cutout near the bottom of the mug. Add curly vines with a marker if you like.

6. Finish your mug!

Glue on the optional cheeks, or draw your own. Add colors and decorations to make your smiling mug unique! Let dry.
